Profile

- **Recently finished full stack web dev course at Le Wagon building an online marketplace using Ruby on Rails. Previously worked as a blockchain business manager.**
- Currently developing *My Dressmaker* (http://my-dressmaker.com), a product my team and I has been working on since coding bootcamp, by remotely collaborating with other teammates on Github.
- My life goal is to make a social impact. I am always eager to learn new things in order to challenge myself, broaden my horizon and grow from the experience.
- I am looking for a team that has open culture and vibrant energy, values education and therefore gives juniors opportunities to learn and challenge themselves.

Education

Le Wagon **Bali** **Indonesia**	**Full Stack Web Development** - Le Wagon is an intensive 9-week (400 hours) web development coding bootcamp that covers Ruby, MVC, TDD, SQL, HTML/CSS, Javascript, Ruby on Rails. - Built an MVP of custom dress marketplace web app *My Dressmaker* in a team of 4 over a week. Together we defined core features, designed, and developed both frontend and backend of the product. It is deployed on heroku now. Our team is further improving the product to have a test launch soon. - Contributions include implemeting dressmakers profile cards with carousels, search function using Rails library for Postgre query, AJAX to build messaging function with all the associated frontend designs, and much more.	**01/2019 – 02/2019**
Seoul National University **Seoul** **Korea**	**Political Science and International Relations, Sociology**	**03/2011 – 02/2017**
Shanghai High School International Divison **Shanghai** **China**	**International Baccalaureate**	**09/2006 – 06/2010**

Work experience

ICONLOOP **Korea** **Seoul**	**Global Business Development Manager** - Pitched products to potential investors, partners and on/offline communities of blockchain enthusiasts - Organized and gave talks to meetups and conferences which attracted 100+ audience in San Francisco, New York, Hong Kong, Singapore, Shanghai, Beijing, Tokyo, Seoul, Sydney for blockchain developers and investors - As one of the earliest team members, helped the company grow into one of the largest	**09/2016 – 12/2018**

Work experience

and most pioneering blockchain companies in Korea, including fundraising 45M USD with ICO for project ICON in September 2017
